

CLASSROOMS THAT EVOLVE

Designing spaces that move with the learner.

Why flexible, student-centered spaces matter.

THE BIG IDEA

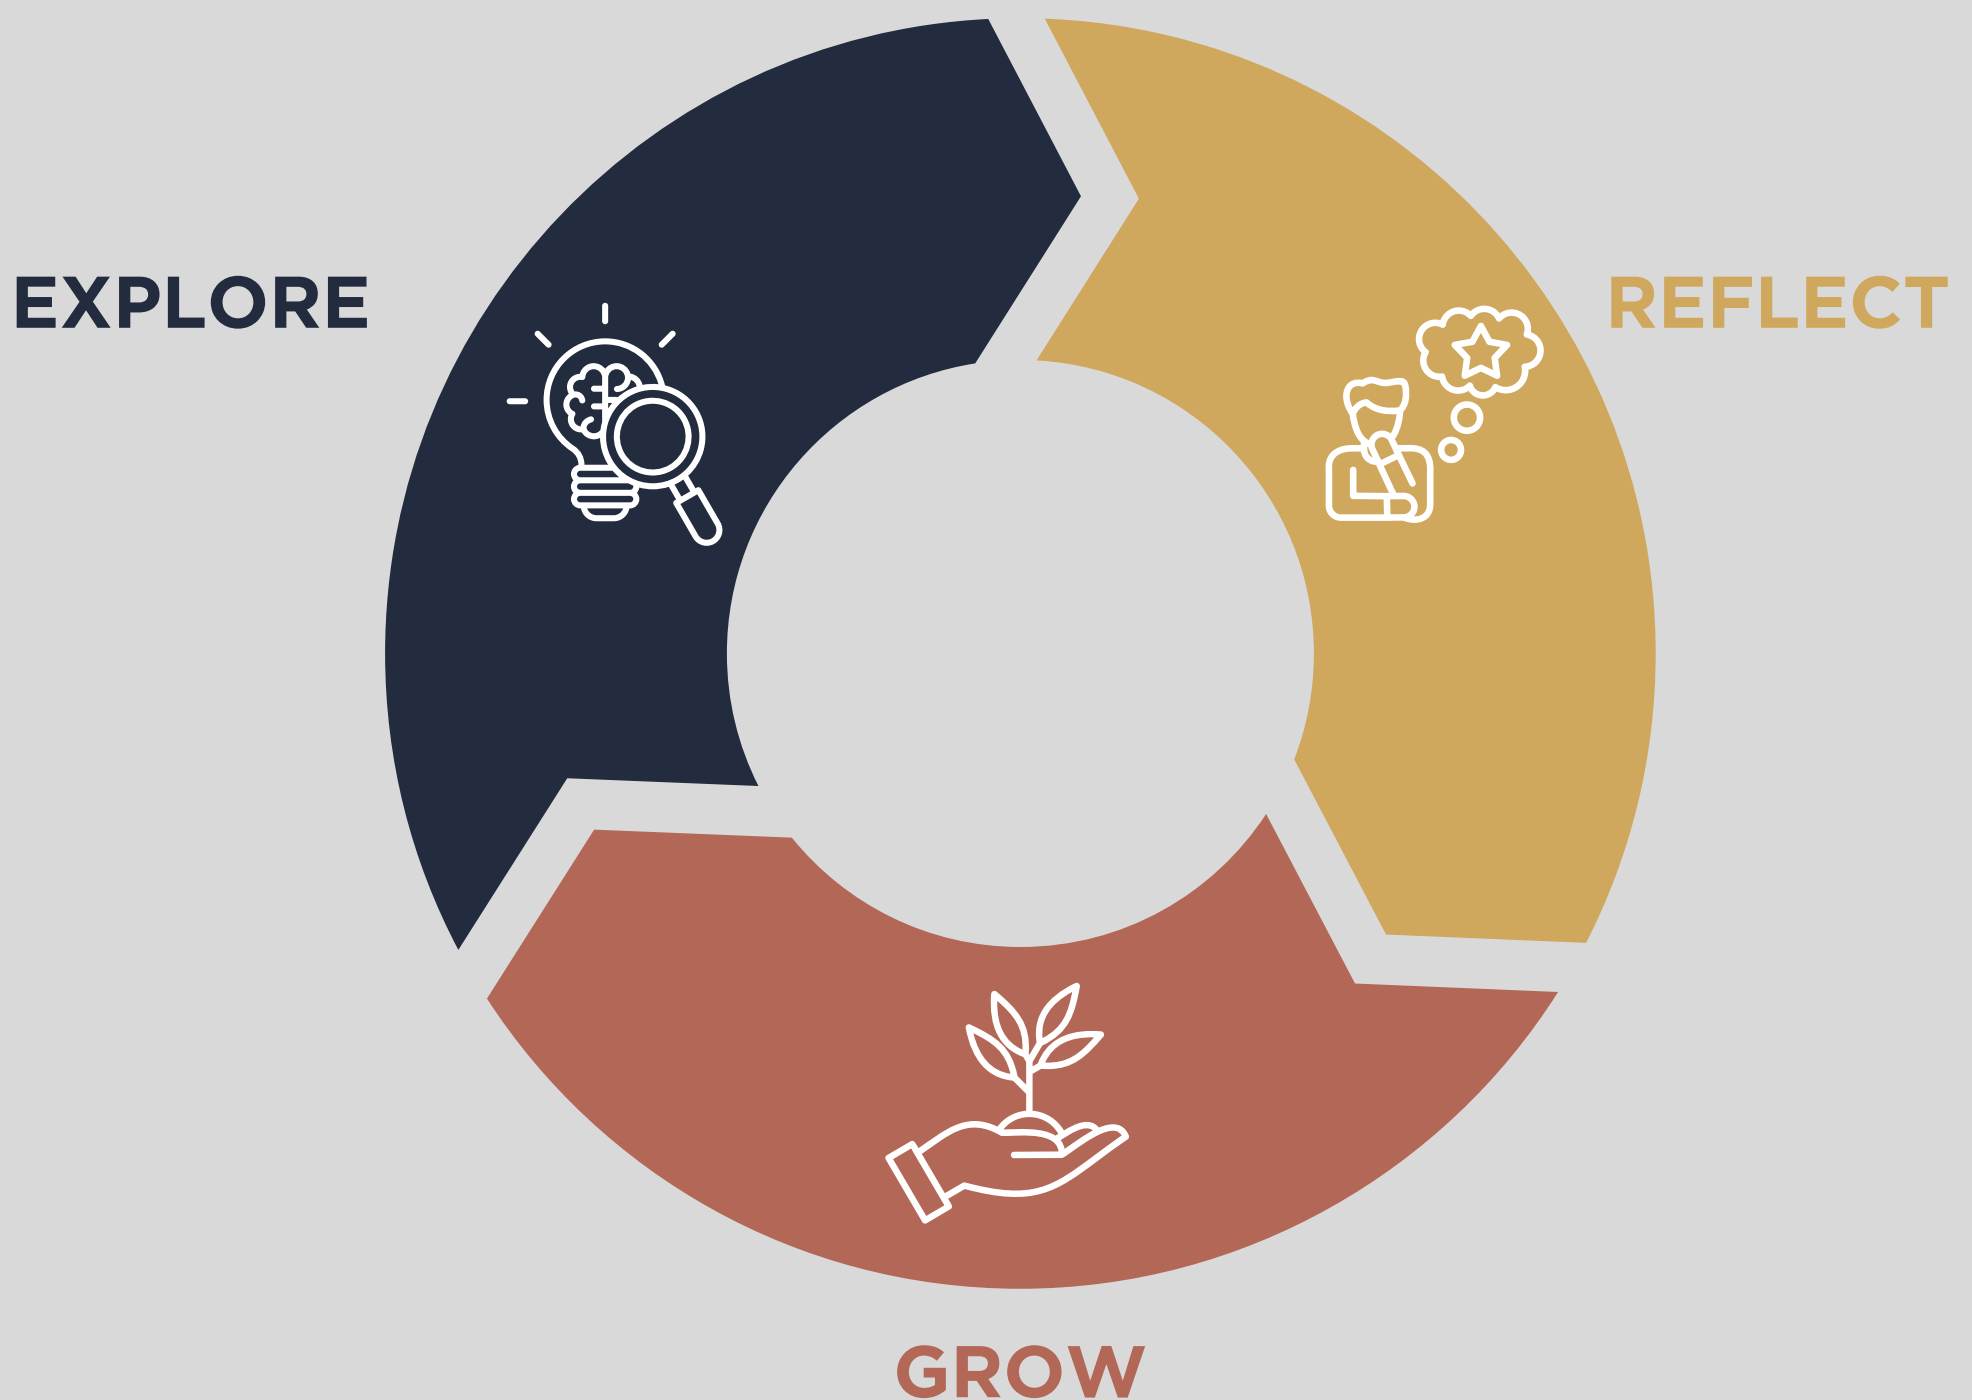

Classrooms are living ecosystems.

Today's classrooms shift constantly, between solo work, group projects, and teacher-led instruction. Spaces must adapt to keep up.

LEARNING IS A CYCLE

Classrooms aren't just for sitting and listening anymore.

They're for exploration, growth and transformation.

DESIGNING FOR FLUIDITY & CHOICE

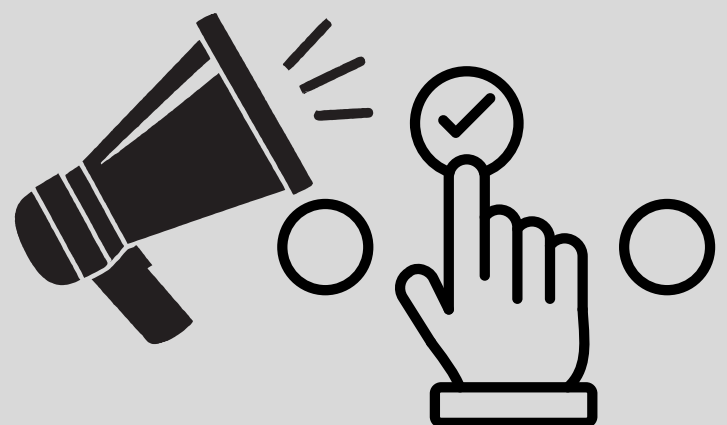

Key Design Elements

Modular Furniture

Biophilic Design

Voice & Choice

SUPPORTING GROWTH THROUGH MOVEMENT

Spaces that support learners:

Zones for Focus

**Spaces for
Connection**

**Moments for
Movement**
