PARAGON
FURNITURE

CYCLE® SERIES STUDENT DESK

Designed for the Rhythm of Learning

The Cycle® Series is designed around the natural rhythm of how we learn – much like learning to ride a bike. There's a balance, momentum, and constant moving forward. From early education through high school, Cycle® supports every stage of the learning journey with furniture that's flexible, mobile, and intuitive.

Inspired by the strength and simplicity of bicycle frames, the collection brings clean lines, smart components, and thoughtful details into the classroom. Each piece is built to adapt – whether students are working independently, collaborating in groups, or engaging with teachers. With Cycle®, classrooms become dynamic environments that move with the learner, supporting growth, exploration, and the evolving cycle of learning.

CYCLE® SERIES STUDENT DESK

DESIGN & PERFORMANCE HIGHLIGHTS

Research-Driven Design
A unique design informed by research showing that the shape, size, color, and texture of furnishings play an important role in priming students to learn more effectively.

Dynamic & Adaptable
Designed for reliability and easy reconfiguration, supporting flexible classroom layouts and evolving instructional needs.

Fast, Intuitive Assembly
Reduces installation time by at least 50% compared to typical student desks.

Tool-Free Height Adjustment
Simple height adjustment with no hardware or tools required, allowing quick adaptation across grade levels.

Built to Last
Quality materials and construction, manufactured to the same high standards Paragon is known for and backed by our industry-leading limited warranty.

24" x 32" 24" x 64"

PARAGON FURNITURE

CYCLE® SERIES STUDENT DESK

HOW TO SPECIFY

FRAME

The frame features a sturdy 1½ ″ 16-gauge round steel upper leg and a 1″ 16-gauge round steel lower leg, allowing for height adjustability in 1″ increments. Each leg is securely supported by a ¼″ A36 steel plate for exceptional strength and stability.

SURFACE/EDGE

Constructed with a 1″ high-density fiberboard core and a premium high-pressure laminate work surface, the Cycle® Series Student Desk is built for durability and daily use. Each top features a precision machine-applied edge band for a seamless, long-lasting finish. The underside is sealed with a weather-resistant phenolic resin paper for added protection and stability.

LEG ASSEMBLY

Features the Patent Pending CLICK+SET™ quick-install mounting system with durable glass-filled nylon leg support brackets. Brackets are factory-installed using six countersunk flathead screws, with two 1″ machine screws provided for installation.

BEZEL

Patent Pending Glass-filled nylon plastic bezel design requires no additional hardware for installation.

GLIDES

Outfitted with standard adjustable pivoting nylon glides for smooth, stable floor contact and easy repositioning.

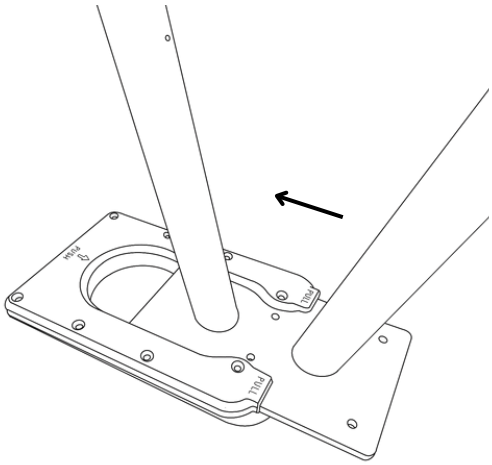

BACKPACK HOOK

Includes a durable plastic-molded backpack hook made from glass-filled nylon in the standard Onyx finish.

CYCLE® SERIES STUDENT DESK

STANDARD FEATURES

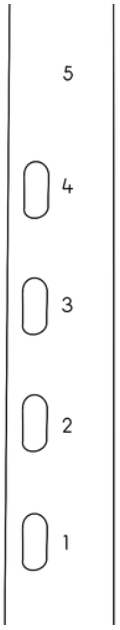

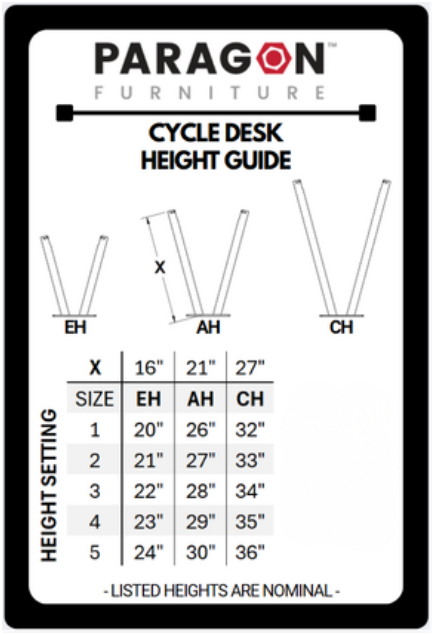

CLICK+SET™

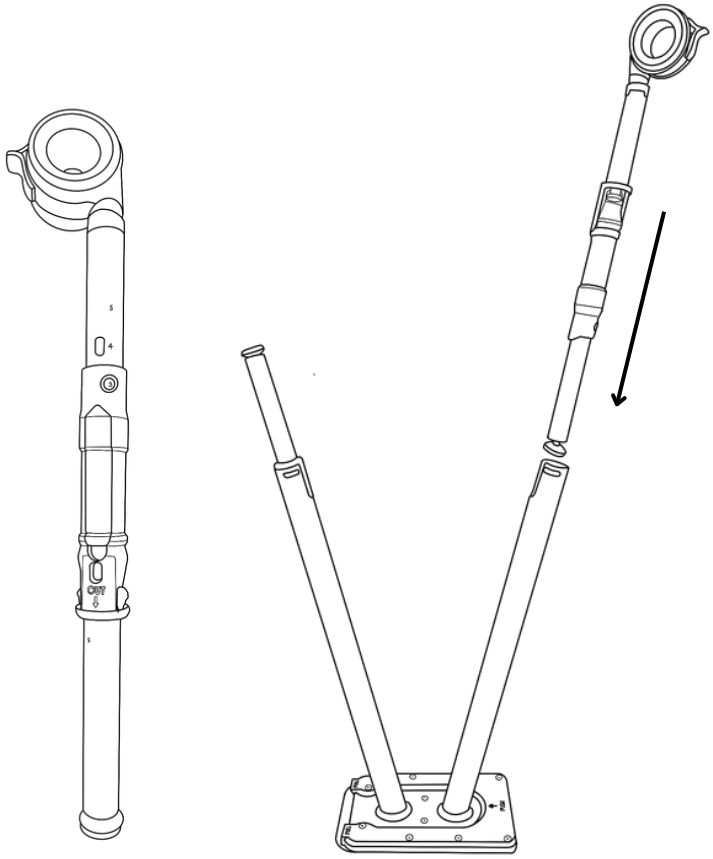

Features the Patent Pending CLICK+SET™ quick-install mounting system with durable glass-filled nylon leg support brackets. Brackets are factory-installed using six countersunk flathead screws, with two 1″ machine screws provided for installation.

ENGRAVED HEIGHT GUIDE

Laser-engraved height markings on each leg provide clear visual reference points, making it easy to set and align the desk to the desired height. This simple system removes guesswork during assembly and ensures quick, accurate adjustments every time.

BACKPACK HOOK

GLIDE TO CASTER CONVERSION

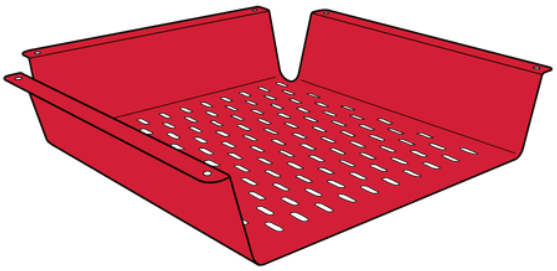

The Patent Pending bezel system allows the lower leg to be easily flipped, revealing two end caps—one designed to accept a glide and the other a caster. This dual-end design allows the desk to quickly convert from a stationary glide base to a mobile caster base without changing components. When not in use, the glide remains attached and rests dormant within the upper leg, keeping it accessible while maintaining a clean, streamlined design. See the video demonstration here: https://www.paragoninc.com/cycle-student-desks/

CYCLE® SERIES PERCH STOOL

The Cycle® Series Perch Stools bring modern design and ergonomic support to today's learning environments. Designed to promote healthy posture and strengthen core muscles, these stools keep students actively engaged while providing comfort throughout the day. Available in three heights, seated, counter and standing, the Cycle® Series Perch Stools adapt to a variety of learning spaces and activities. With durable construction and clean lines, they're built to support both movement and focus in 21st century classrooms.

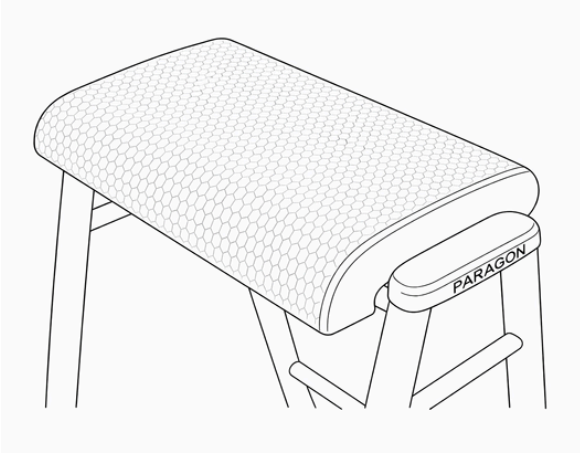

PARAGON FURNITURE

CYCLE® SERIES PERCH STOOL

HOW TO SPECIFY

FRAME

All-welded frame constructed from 1 ¼″ 18-gauge steel tubing, finished with rounded nylon end caps for protection and a clean appearance.

SEAT

Blow-molded plastic seat in a standard Onyx finish, combining durability with comfortable support and featuring a lightly textured surface for added slip resistance.

OPTIONS

Offered in three heights: 18″, 24″, and 28″.

BACKLESS SEAT

The backless design of the Cycle® Series Perch Stool is intentionally crafted to promote active sitting and core engagement. By encouraging posture and natural movement, students strengthen their core muscles and improve focus throughout the day. This dynamic seating approach supports better circulation, energy, and attentiveness, helping create healthier, more active learning environments.

STACKING

Cycle® Series Perch Stools are designed with efficient storage in mind, stacking up to five stools high to maximize classroom space. All stool sizes are compatible for stacking, allowing easy organization and flexibility when rearranging or storing seating.

CHAIR WEIGHT CAPACITY

Our chairs are tested to meet Business and Institutional Furniture Manufacturers Association (BIFMA) standards, the industry benchmark for furniture safety, durability, and structural performance. This testing helps ensure the chairs perform as intended in demanding environments such as classrooms and other educational settings when used appropriately.

FURNITURE

CYCLE® SERIES TEACHER DESK

The Cycle® Series Teacher Desk delivers modern design, thoughtful functionality, and the flexibility educators need in today's learning environments. Built with integrated cable management, PET acoustic modesty panels, and convenient pencil storage, it keeps workspaces organized and clutter-free. With its clean lines and durable construction, the Cycle® Series Teacher Desk offers a professional, efficient hub for instruction in the 21st-century classroom.

PARAGON FURNITURE

CYCLE® SERIES TEACHER DESK

HOW TO SPECIFY

FRAME

The frame features a durable 16-gauge round tube outer leg paired with a 1 1/2" 16-gauge round steel inner tube, providing a strong and stable foundation for daily classroom use. This dual-tube construction enhances structural integrity while maintaining a clean, streamlined aesthetic suitable for today's learning environments.

SURFACE/EDGE

Constructed with a 1″ high-density fiberboard core and a premium high-pressure laminate work surface, the Cycle® Series Teacher Desk is built for durability and daily use. Each top features a precision machine-applied edge band for a seamless, long-lasting finish, while the underside is sealed with a weather-resistant phenolic resin paper for added protection and stability. The desk is fixed at a 30″ height.

For modern classroom functionality, the work surface includes USB and USB-C charging ports, with a 6′ power cord and integrated cable management beneath the desk to keep cords organized and out of the way.

OPTIONS

The Cycle® Series Teacher Desk is available in multiple configurations to support different classroom layouts and teaching styles. Desk shape options include a standard rectangle or a left- or right-side P-top, with a choice of left or right wrapped modesty panels. For mobility and stability preferences, desks can be specified with stationary glides, 2-caster, or 4-caster options. Adding casters does not change the overall height of the teacher desk. A pencil drawer is available as an added accessory for convenient organization and easy access to classroom essentials.

PET PRIVACY MODESTY PANEL

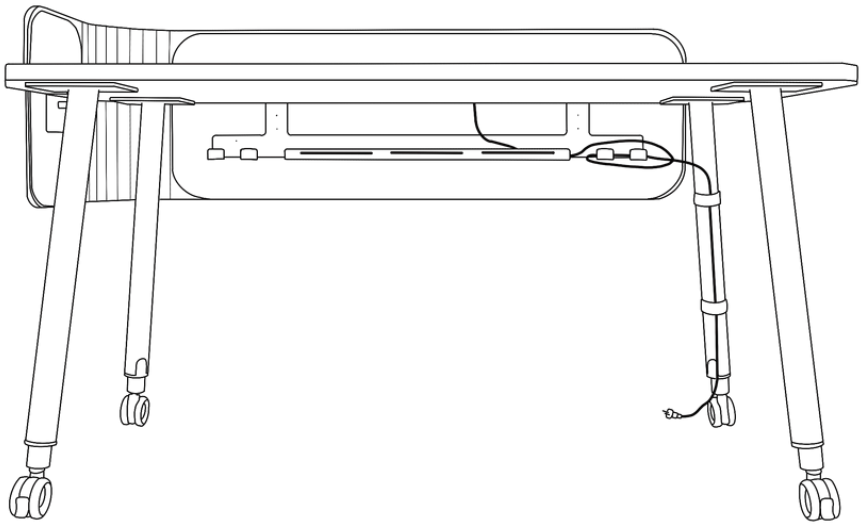

Each PET privacy modesty panel features an integrated 16-gauge magnetic plate that allows it to snap securely to the desk for quick installation. This magnetic system makes the panel easily changeable and adaptable for left- or right-side placement, giving educators the flexibility to customize their workspace with ease.

Cycle® Teacher Desk privacy modesty panels are constructed from PET acoustical material, designed to support both sound control and sustainability. The PET material is 100% recyclable and contains a high percentage of recycled content, including post-consumer material derived from plastic bottles. Panels are available in five color options, allowing for both functional performance and visual coordination within the classroom.

PARAGON FURNITURE

CYCLE® SERIES TEACHER DESK

STANDARD FEATURES

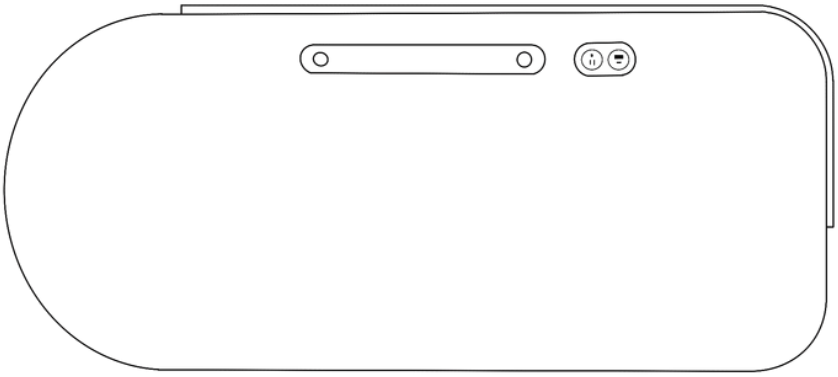

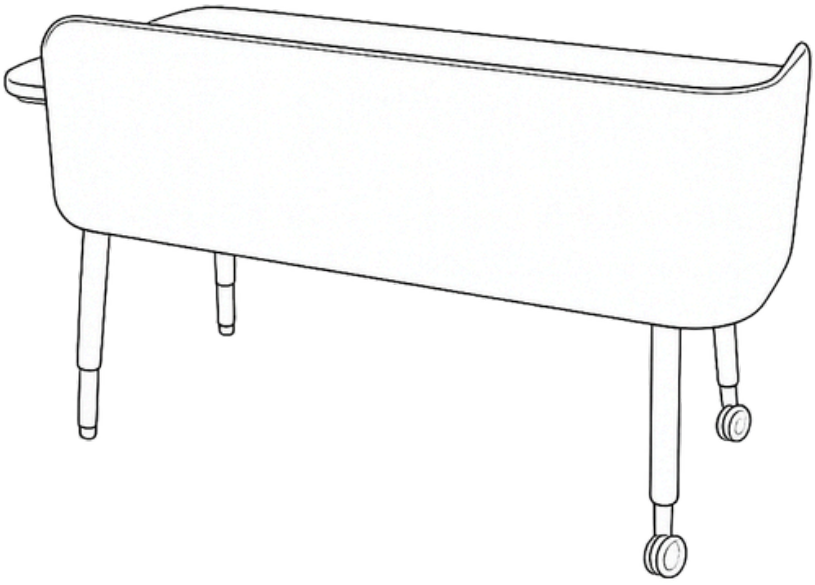

CABLE MANAGEMENT

Integrated cable management, welded to the modesty panel, keeps cords organized and out of sight beneath the desk. A 6′ power cord is included, with ½″ velcro straps that secure the cord along the desk legs to maintain a clean and organized workspace.

INTEGRATED POWER & STORAGE

The worksurface includes integrated USB and USB-C charging ports for convenient device charging, along with an integrated pencil and cable tray to keep small items and cords organized.

PET PRIVACY MODESTY PANEL

Cycle® Teacher Desk privacy panels feature an integrated 16-gauge magnetic system for quick, tool-free installation, allowing easy adjustment for left- or right-side placement. Constructed from PET acoustical material, they support sound control while being 100% recyclable and made with recycled plastic content. Available in five color options, these panels offer both functional performance and seamless classroom coordination.
