

CYCLE® SERIES FLIP TOP STUDENT DESK

Designed for the Rhythm of Learning

The Cycle® Series is designed around the natural rhythm of how we learn – much like learning to ride a bike. There's a balance, momentum, and constant moving forward. From early education through high school, Cycle® supports every stage of the learning journey with furniture that's flexible, mobile, and intuitive.

Inspired by the strength and simplicity of bicycle frames, the collection brings clean lines, smart components, and thoughtful details into the classroom. Each piece is built to adapt – whether students are working independently, collaborating in groups, or engaging with teachers. With Cycle®, classrooms become dynamic environments that move with the learner, supporting growth, exploration, and the evolving cycle of learning.

DESIGN & PERFORMANCE HIGHLIGHTS

Research-Driven Design

A unique design informed by research showing that the shape, size, color, and texture of furnishings play an important role in priming students to learn more effectively.

Dynamic & Adaptable

Designed for reliability and easy reconfiguration, supporting flexible classroom layouts and evolving instructional needs.

Tool-Free Height Adjustment

Simple height adjustment with no hardware or tools required, allowing quick adaptation across grade levels.

Built to Last

Quality materials and construction, manufactured to the same high standards Paragon is known for and backed by our industry-leading limited warranty.

24" x 32"

HOW TO SPECIFY

FRAME

The frame features a sturdy 1½" 16-gauge round steel upper leg and a 1" 16-gauge round steel All-welded steel frame construction featuring a 1-1/2" diameter, 16-gauge round steel upper leg for strength and durability. Includes an integrated 1" steel backpack hook for convenient storage. Designed to withstand the demands of daily use in educational environments.

SURFACE/EDGE

Constructed with a 1" high-density fiberboard core and a premium high-pressure laminate work surface, the Cycle™ Series Breakaway Table is built for durability and daily use. Each top features a precision machine-applied edge band for a seamless, long-lasting finish. The underside is sealed with a weather-resistant phenolic resin paper for added protection and stability.

BEZEL

Patent Pending Glass-filled nylon plastic bezel design requires no additional hardware for installation.

CASTERS

Outfitted with standard adjustable locking casters for smooth, stable floor contact and easy repositioning.

BACKPACK HOOK

Includes a all-welded 1" steel backpack hook for convenient storage. Backpack Hooks come in selected Frame finish.

STANDARD FEATURES

ENGRAVED HEIGHT GUIDE

Laser-engraved height markings on each leg provide clear visual reference points, making it easy to set and align the desk to the desired height. This simple system removes guesswork during assembly and ensures quick, accurate adjustments every time.

BACKPACK HOOK

GLIDE TO CASTER CONVERSION

The Patent Pending bezel system allows the lower leg to be easily flipped, revealing two end caps—one designed to accept a glide and the other a caster. This dual-end design allows the desk to quickly convert from a stationary glide base to a mobile caster base without changing components. When not in use, the glide remains attached and rests dormant within the upper leg, keeping it accessible while maintaining a clean, streamlined design. See the video demonstration here:
