

CYCLE® SERIES MOBILE STORAGE

The Cycle® Series Mobile Storage collection combines modern design with versatile functionality to support today's dynamic learning environments. From bookcases and carts to credenzas, each piece is designed to keep materials organized, accessible, and secure, with features like locking storage, writable back panels, and integrated handles. Smooth-rolling casters allow effortless mobility, making it easy to adapt to flexible classroom layouts and collaborative learning. With durable construction and clean, cohesive design, Cycle® Series Mobile Storage solutions are built to move with you.

Research-Driven Design

A unique design informed by research showing that the shape, size, color, and texture of furnishings play an important role in priming students to learn more effectively.

Dynamic & Adaptable

Designed for reliability and easy reconfiguration, supporting flexible classroom layouts and evolving instructional needs.

Sustainable Materials

Made from recycled PET, the storage bins and caddies reduce environmental impact while supporting durable, everyday classroom use.

Dual Purpose Design

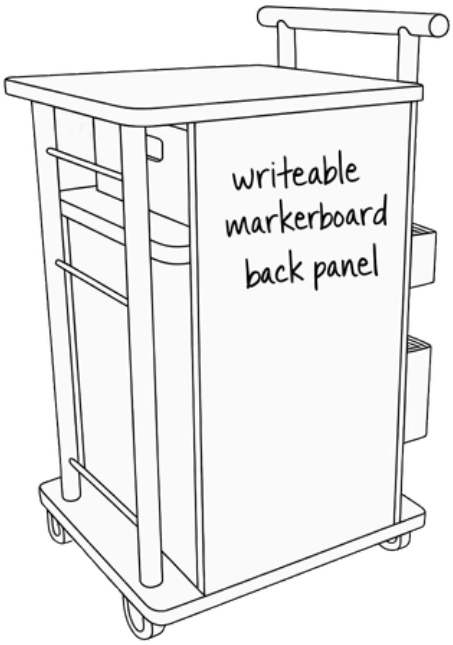

A writable markerboard back panel adds functionality, turning storage into a space for collaboration and creativity.

Built to Last

Quality materials and construction, manufactured to the same high standards Paragon is known for and backed by our industry-leading limited warranty.

CYCLE™ SERIES MOBILE STORAGE

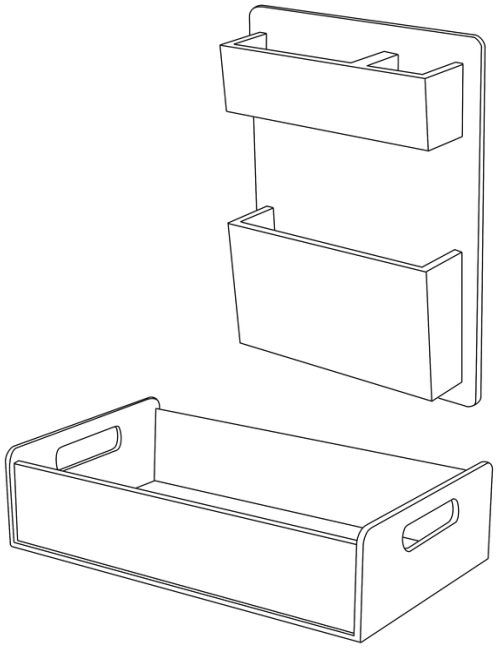

PARAGON FURNITURE

WRITEABLE BACK PANEL SURFACE

3/4″ thick double-sided high-density fiberboard core finished with high-pressure markerboard laminate, providing a durable, writable surface on the Mobile Bookcase, Credenza, and Storage Cart—perfect for collaboration, note-taking, and everyday classroom use.

The Mobile Cart features an open-back design for accessible storage and added flexibility in active learning environments.

PET STORAGE BIN ACCESSORY OPTIONS

Cycle® Series storage bins and caddies are constructed from PET material, offering durable performance with a strong focus on sustainability. The PET material is 100% recyclable and contains a high percentage of recycled content, including post-consumer material derived from recycled plastic bottles. Storage bins and caddies are available in five color options, allowing for organized functionality and cohesive classroom design.
